MEMORANDUM FOR: Acting Director of Central Intelligence

VIA: Executive Director
Deputy Director for Intelligence [REDACTED]

25X1

FROM: [REDACTED]
Director of Global Issues

25X1

SUBJECT: Proposed Assessment of National Security
Implications of Foreign Investment in the
United States1. Action: No action required, for your information only.

2. Background: In response to your inquiry about the national security implications of foreign investment activities, we have prepared a tentative outline for an Intelligence Assessment (see attachment). We hope to complete the paper by the end of June. An earlier completion date is not possible since many of the people who will be involved in its preparation are currently involved in the DCI's paper on US Dependency on Foreign Sources for Key Manufactured Goods.

3. The most difficult part of this assessment will be to determine the specific technologies and US firms where foreign investment is significant.
